

AquaRite® 900

SALT CHLORINATOR WITH
EXTENDED LIFE TURBOCELL®

Enjoy perfectly sanitized, luxuriously soft water that now lasts 25% longer. As the global leader in salt chlorination, Hayward provides luxuriously soft water and the most convenient sanitization method on the market to millions of pool owners around the world. With the introduction of AquaRite 900, we're taking our industry-leading technology to the next level. AquaRite 900 is designed to provide the same superior salt chlorination you expect from Hayward, but with an Extended Life TurboCell, it produces 25% more chlorine over its lifetime than our leading AquaRite systems. The Extended Life TurboCell cuts your chlorine costs by 50% or more, to less than \$1 per pound. Plus, with an industry best 4-year warranty, you can relax in the comfort of your pool completely worry-free.

Enjoy your investment longer. Experience Extended Life.

For unmatched comfort and convenience, choose AquaRite® 900.

Hayward®'s AquaRite 900 is the most convenient alternative to conventional chlorine—bringing your pool the very best in soft, silky, perfectly sanitized water without you ever having to lift a finger. Combine that with the industry's best warranty support, and it's no surprise AquaRite is the world's #1 salt chlorinator today, with over 1 million units sold.

4YEAR
LIMITED
WARRANTY

AquaRite 900 features our Extended Life TurboCell®, offering the same superior salt chlorination as the leading AquaRite system, but with a 25% greater total chlorine output over its lifetime. The Extended Life TurboCell cuts your annual chlorine costs in half and eliminates the hassle of constantly handling conventional chlorine. Plus, with a 4-year warranty, you can enjoy your pool for years to come, secure in the support of the trusted Hayward name.

ENJOY SOFT, SILKY WATER.

Because salt chlorination provides automatic, consistent sanitization—avoiding the highs and lows of manual chlorine addition—salt chlorinated water won't irritate eyes, dry out skin or cause fabrics to fade. The gentle sanitization process eliminates harsh chlorine odors while creating velvety smooth water that feels unbelievably luxurious.

WORK LESS, PLAY MORE.

Salt chlorination systems automatically convert dissolved salt into a virtually endless supply of chlorine, so you can spend less time maintaining your pool and more time enjoying it. No more mixing and measuring harsh, factory-produced liquid or tablet chlorine—just jump in and relax with total peace of mind.

SAVOR THE COST SAVINGS.

As a steady supply of fresh, natural chlorine continuously circulates throughout your pool, you can expect to cut your chlorine costs by at least 50%. By keeping water chemistry perfectly balanced, salt chlorination can also extend the life of your pool and spa, saving you expensive replacement costs down the road.

EXTENDED LIFE VS. STANDARD TURBOCELLS

Cell/ Pool Size Rating	Total Pounds of Free Chlorine Produced (as Trichlor)*
Extended Life TCELL940 (40,000 gallons)	725 lbs.
Hayward T-CELL-15 (40,000 gallons)	580 lbs.
Extended Life TCELL925 (25,000 gallons)	480 lbs.
Hayward T-CELL-9 (25,000 gallons)	385 lbs.

*Based on rating of chlorine delivery by NSF and Denora Tech.
